News Letter #1

01 October 2007

Thanks for opening up my first news letter! I have a lot of big ideas for this but I am going to keep it simple here for at least the time being. I am going to use this to let those that care know what I have going on and what I am planning on for the future. For now I will try to keep my banter to a minimum and let pictures speak for themselves. I will put out a new letter as often as I can, but I won't put one out unless I have something worth while to put in it.

If you would like to sign up to get the news letters sent to your e mail when they come out in .pdf format, drop me an e mail.

Since this is the first one, I'll start off with a quick snap shot of where I am and what I have going on right now. My time here in Hawaii and in the Marine Corps is getting short. This Spring, I will be moving from Hawaii back to the mainland. The shop will be boxed up for a few months, and I don't know exactly when it will be back up. What I do know is that once I do get it set back up I will be spending a lot more time in it. I am stoked to get this move done and get a real shop sent up!

Until then I am still working with Stan Fujisaka, mainly Stan is helping me with my folders. I tried once to make a folder on my own, several years ago. While I still have that one, it didn't really work out too well and it will never see the light of day again.

So I guess to say that Stan helped me get started with folders is putting it lightly. Well more to come later, I'll close out with a few pictures of some recent knives.

Thanks for your interest!
